HOLIDAYS WILL BE HERE SOON!

*28 days until the start of November!
Holiday crunch time starts soon!*

Once again we here at Exterior Products find ourselves at the calm before the pumpkin spiced storm. For the past couple months we have been making preparations in our facility by replacing, repairing, and refurbishing decor. Now for the month of October we will be gradually preparing centers around SoCal for the holiday season.

More subtle holiday decor like building, palm, and tree lighting is already being installed at some centers!

Come November, we will be in full swing with our holiday installations. The lights installed the prior month will get plugged in. Monuments will be topped with garlands and bows. Impressive Christmas trees will pop up at several centers. Holiday banners will decorate many light poles. The wreathes we freshly refurbished will also be on display with our other decor.
